

## Update: Performance Feedback Available for 2018 Data Submitted Via Claims

The [QPP website](#) has been updated so ECs who submit their Quality performance category data via claims can access performance feedback for 2018 on an ongoing basis.

If you're participating in MIPS as an individual clinician and you have chosen to use claims to submit quality performance category data, you attach quality data codes (G-codes) to your claims throughout the 2018 performance year. Those who have been doing so can now login to the QPP website and review their performance feedback, which will be updated on a monthly basis.

For more information about submitting your quality performance category data via claims, review the [2018 claims data submission fact sheet](#). For questions, contact the QPP service center:
